Digital Certificates Swiss Safety Mark - Information

As of **1 January 2023**, ESTI Safety Mark S+ certificates will be issued exclusively as digitally signed "pdf" certificates (readable e.g. with Adobe® Acrobat Reader). Existing printed certificates remain valid until the specified validity date.

Issued **digital certificates Safety Mark S+** now contain additional features:

- ✓ **QR Code**
Authenticity and validity period of certificates can be verified online in the Approval Register S+ [ESTI](https://www.est.admin.ch)
- ✓ **digital pdf signature**
Protects certificates from any modification

All previous features and the graphic design of the certificates remain unchanged. This creates **trust** and additionally **increases the informative value** of the ESTI Safety Mark S+ certificates.

If you have any questions, please contact mub.bs.info@esti.ch or +41 58 595 18 35.
